From Prototyping to Production: The Growth and Potential of Additive Manufacturing

RAMP MD's 10th Anniversary Symposium

Join the Regional Advanced Manufacturing Partnership of Maryland (RAMP MD) as we celebrate a decade of innovation in additive manufacturing. This year's symposium focuses on the transformative journey from prototypes to scalable solutions. Dive into a day of insightful discussions, groundbreaking case studies, and a look into the crystal ball of future trends in additive manufacturing.

OCT. 9, 2024 • 8AM–4PM

Program

Join the Regional Advanced Manufacturing Partnership of Maryland (RAMP MD) as we celebrate a decade of innovation in additive manufacturing. This year's symposium focuses on the transformative journey from prototypes to scalable solutions. Dive into a day of insightful discussions, groundbreaking case studies, and a look into the crystal ball of future trends in additive manufacturing.

Don't miss this opportunity to be part of the conversation shaping the future of additive manufacturing. Register today and secure your place at the forefront of the industry's next big leap!

Expert Panels & Keynote Speakers

- Hear from industry leaders and academic pioneers on overcoming limitations of additive manufacturing and anticipating future developments.

Innovative Case Studies

- Learn from real-world examples of successful prototypes.

Emerging Technology and Trends

- Explore the latest advancements in materials, technologies, and methodologies shaping the future of additive manufacturing.

Networking Opportunities

- Connect with professionals, innovators, and thought leaders in the field of additive manufacturing.

Panel Discussions

- The Role of Additive and Advanced Manufacturing Across All Product Management Phases
- The Role of Automation, AI/ML in Product Management
- The Role of Advanced Materials in Product Development and Management
- Outlook for the Future of Advanced Manufacturing

PROTOTYPING TO PRODUCTION: GROWTH AND POTENTIAL OF ADDITIVE MANUFACTURING

OCT. 9, 2024 • 8AM–4PM

CONVERGE INNOVATION CENTER • 1201 Technology Drive, Aberdeen, Md.

About

RAMP MD: Growing Additive Manufacturing in Maryland

The Regional Advanced Manufacturing Partnership of Maryland (RAMP MD) was formed by the Maryland General Assembly in 2014 to expand the state's capabilities in additive manufacturing. RAMP MD is a consortium of private businesses, educational institutions, and governmental agencies, working together to:

- ✓ Provide businesses access to additive manufacturing facilities, equipment, and expertise
- ✓ Expand and connect a network of businesses
- ✓ Educate a supporting workforce

Through RAMP MD, companies access facilities and expertise of the U.S. Army Chemical Biological Center and the U.S. Army Research Laboratory. RAMP MD currently holds partnership agreements with over 25 industry partners and is in the process of negotiating more. RAMP MD is also working with Maryland educational institutions to develop pathways into high-tech, high-pay additive manufacturing careers.

Sponsor Benefits

Put the Spotlight on You

Put your brand, capabilities, and products/services in front of potential customers and partners. Use your exhibit space to demonstrate your products and expertise, and to meet with potential customers. Use our signage to display your brand. We'll work with you to make sure you get the exposure you want.

Connect

You will have the opportunity to network and connect with over 150 attendees and 20+ speakers and panelists who are actively involved with the additive manufacturing industry. This Symposium is big enough to attract top thought leaders and small enough to make sure you get access to them.

We will work with you so your sponsorship is a major success for your organization. Contact joan@rampmd.org to discuss.

Join the Ranks of Top Companies to Sponsor RAMP MD

RAMP MD is very grateful for the support of the following companies at past events and symposia:

Sponsor

Opportunity	Gold Sponsor	Nickel Sponsor	Bronze Sponsor
Opportunity for remarks	✓
