Northrop Grumman Corporation | Mission Systems

Intelligent, effective weapons, ready for today's fight and beyond.

Innovative provider of proven manned and unmanned air systems.

Pioneering integrated, layered defense solutions across all domains.

Redefining limits with survivable, secure, resilient, and precise mission solutions in sensing, connectivity, and more.

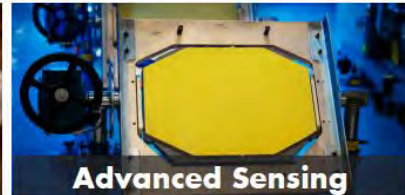

From defending freedom to advancing human discovery, we are defining what is possible in space every day.

Our solid rocket motors power strategic U.S. weapon systems, the civil space industry, and commercial launch providers.

Decades of leadership in building mission-critical microelectronics and responsible AI-enabled trusted systems.

Delivering unmatched sensing capabilities for real-time awareness, long-range threat detection, and unparalleled precision anytime, anywhere.

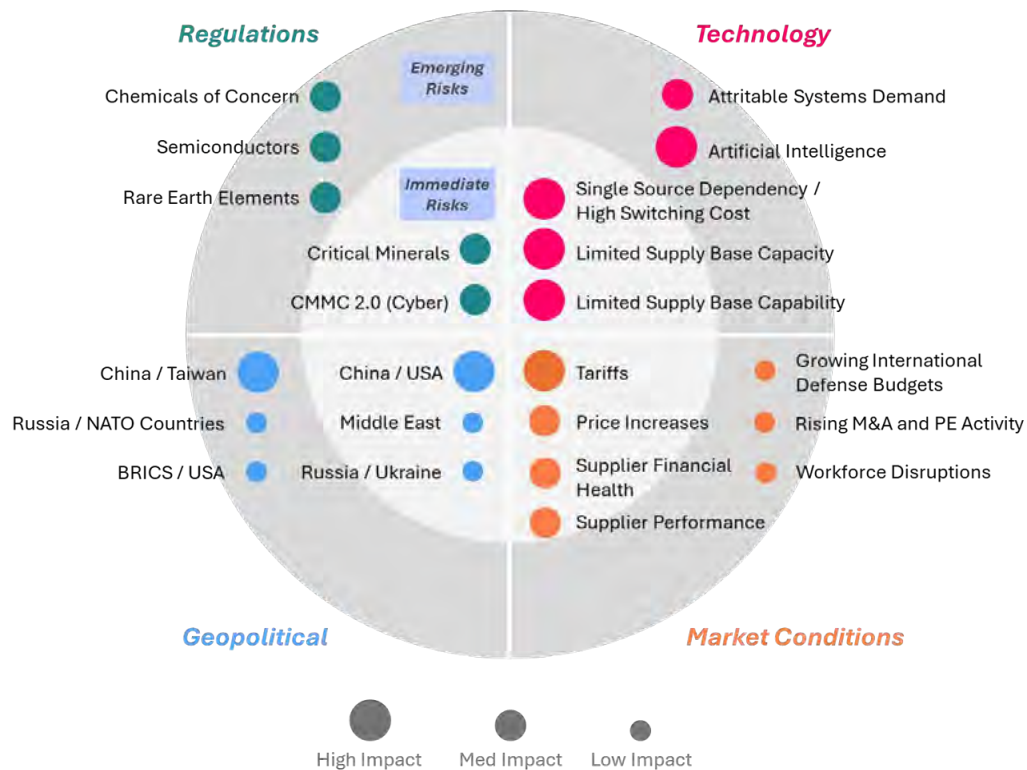

Strategy & Strategic Sourcing

What I Do

- Supply Chain strategy development and maintenance
- Sourcing support for next-gen technologies and strategic captures
- International sourcing support
- Supply Chain macro risk management
- Supplier intelligence
- Customer of Choice initiatives

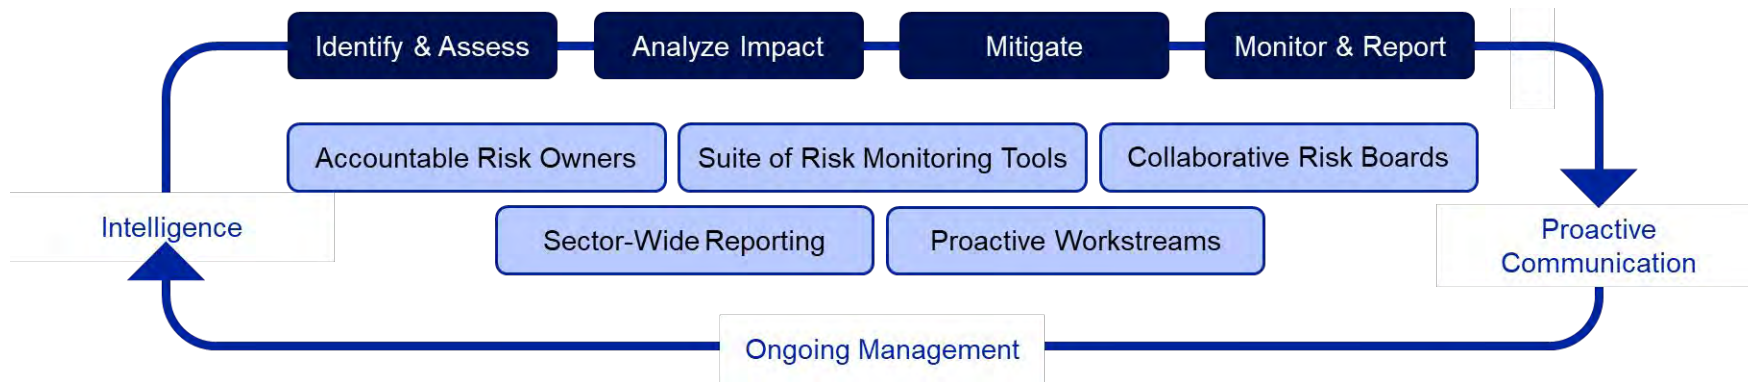

Enhancing Supplier Capability, Capacity, Affordability, and Resilience

NORTHROP
GRUMMAN

The logo symbol consists of a thick horizontal line on the right side of the word "NORTHROP", which extends to the right and then turns 90 degrees downward to form a vertical line.
